SEPTEMBER RELIEF IN 124 CITIES OF 50,000 OR MORE POPULATION

Relief Expenditures

The strongly upward trend during August in relief expenditures in cities of 50,000 or more population was followed by a slight increase in September similar to the seasonal rise noticeable in September expenditures in previous years.

Reports forwarded to the United States Children's Bureau from 978 relief-giving agencies in 124 cities show an increase of 1.1 per cent between August and September in the amount expended for direct and work relief. The September expenditure this year is 90.6 per cent more than that spent by the same agencies in September, 1931.

As is illustrated in the diagram, the rise in relief expenditures has been mainly in general relief. Such relief increased 2.2 per cent between August and September. Special allowances from public funds increased 0.5 per cent during this period, and work relief decreased 3.5 per cent. Between September, 1931, and September, 1932, expenditures for general relief rose 134.1 per cent; special allowances from public funds, 15.3 per cent; and expenditures for work relief, 56.7 per cent. (Table 1.)

Families Aided

The number of families aided through general relief and special allowances from public funds tended to increase more rapidly than the amount expended. Between August and September the number of families receiving general relief increased 3.9 per cent. The number of recipients of special allowances from public funds increased 1.2 per

cent. Between September,1931, and September,1932, there was a rise of 144.2 per cent in the number of familiee aided through general relief and of 27.2 per cent in the number receiving epecial allowances.

Changee in Different Types of Direct and Work Relief

During September the amounte expended for general public relief and special allowances from public funds continued the upward trend indicated by the Auguet figures. Expenditures of noneectarian family societies also continued to increase.

The following agencies which reported decreases between July and Auguet in amounts expended for relief tended to increase their relief expendituree in September: Private agenciee administering veterane' relief, Catholic agenciee, and the Salvation Army.

Decreases in September expenditures following an upward trend in Auguet were reported by public departmente administering veterans' relief and work relief, emergency relief committees, and Jewieh agencies. Work relief administered by priate agencies decreased in both August and September.

Changee in City Totals for Relief Expenditures

Prompt reporting and the increased cooperation of local agencies brought Atlanta, Brockton, Duluth, Madison, Topeka, and Youngetown into the liet of citiee providing eubstantially complete information on relief expenditures.

One or more important agencies in Richmond, Sharon, and Trenton did not forward reports in time for inclusion in the tabulations, and these three cities, for which city totals were shown in last month's bulletin, were excluded this month.

Reports from the following cities continued to be insufficiently complete for the presentation of city totals, although a number of reports from local agencies were included in the summaries of amounts expended and families aided shown in the other tables:

Cambridge, Mass.
Camden, N. J.
Des Moines, Iowa
Harrisburg, Pa.
Huntington, W. Va.
Miami, Fla.
Oklahoma City, Okla.
Paterson, N. J.
Salt Lake City, Utah
Somerville, Mass.
Springfield, Ohio

Fifty-nine of the 110 cities listed in Table 3 spent more for relief in September than in August. The following 8 cities reported relief expenditures in September which were 20 per cent or more above the amount expended in August: Kenosha, Malden, New Orleans, Philadelphia, Portland, (Oreg.) Tacoma, Terre Haute, and Wichita.

Cities reporting decreases of 20 per cent or more in total relief were as follows: Altoona, Chester, Fall River, Ft. Worth, Lawrence, New Haven, and Oak Park.

Between September, 1931, and September, 1932, increases were reported by 101 of the 107 cities and city areas with complete reports for both periods. In 4 cities the increase was 500 per cent or more; in 6 cities, between 300 and 500 per cent; and in 50 cities, between 100 and 300 per cent.

The median change between August, 1932, and September, 1932, was an increase of 1 per cent; between September, 1931, and September, 1932, an increase of 114 per cent.

Meals and Lodgings for Homeless and Transient Persons

The numbers of meals and of night's lodgings provided for homeless and transient persons were higher in September, but the change this year,

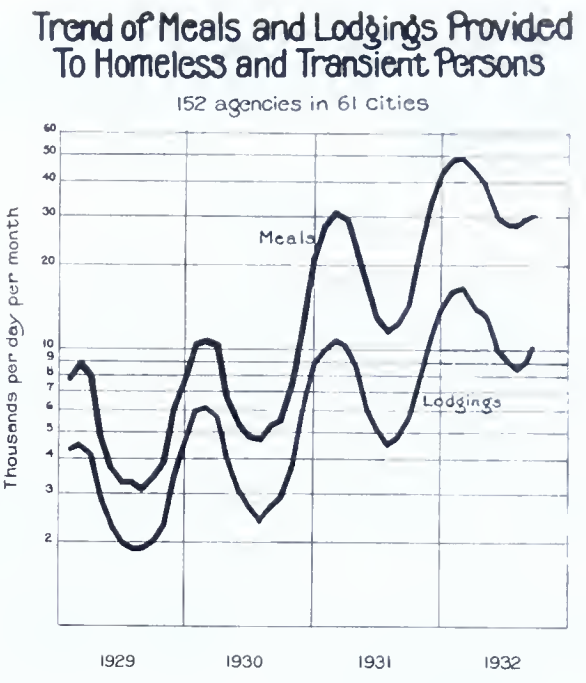
especially in the number of meals, was less marked than was the rise between August and September in 1931.

Reports from 168 agencies in 62 cities of 50,000 or more population show that 944,609 meals were served this year during the 30 days of September in comparison with 933,619 during the 31 days of August. Last year 472,688 meals were served in September and 414,498 in August. The increase between August and September in the average number of meals served per day was 4.5 per cent in 1932 and 17.8 per cent in 1931. The rise between September, 1931, and September, 1932, was 99.8 per cent.

The number of night's lodgings totaled 318,921 in September of this year compared with 290,144 in August, an increase of 13.6 per cent in the daily average. Last year the change from August to September was from 156,655 to 177,939, or an increase of 15.2 per cent. Between September, 1931, and September, 1932, the rise was 79.2 per cent.



STATE REPORTS

Decreased expenditures in September for general public relief were reported by the New York State Department of Social Welfare and by the New Jersey Emergency Relief Administration. The Rhode Island Unemployment Relief Commission and the Wisconsin Industrial Commission reported increases in general relief. Decreased expenditures for work relief were reported in Rhode Island. The amount expended for such relief remained almost unchanged in New York.

The New Jersey Department of Institutions and Agencies reported increases in old-age relief
